> As you requested, we have integrated the BE Discounting Sensitivity
> into the working model. In order to run the model properly, please
> take the following steps:
>
> 1) Save the model down to your own file / desktop (will run slowly out
> of email)
> 2) open excel from the start menu
> 3) Go to: Tools--->Options--->Calculation then click manual calc with
> iterations checked to 100 tolerance
> 4) Open model
> 5) When prompted do not update links
