Subject: RE: Repo 105

Program has some risk to it. Reluctance to expand to new regions/geographies. We should chat in person.

Marie,
circumstances make it more relevant than ever to make best use of 105-mechanics.

As we expand our product reach in Asia, I need to understand, whether we can apply 105-mechanics to A\$-Gov/State-Paper.

I understand you are on vacation - who in your team would be best placed to look into this in your absence?

Thank you for your help, Thomas
