Form	Date	Subject	Location	Lehman Participants	Companies / Participants	Notes
e-Mail (Received)	3/18/08 1:30 PM	Background on Shulman from Tracey Binkley			Shulman, David	David left Lehman in March 2005. He was an MD in Real Estate Research (Equities). He worked for Lehman for 5 years. He's currently 65 years old. I haven't asked the Equities Research management team for more info on him, but we could do that if you think it would help. The person to ask would be Stu Linde. I believe David's message to Dick is simply a loyal Lehman alum offering support. I'd recommend a polite thank you response, but I didn't know David Shulman so don't know if there was some special attachment to Dick.

Call	3/20/08 10:30 AM	Call with Jim Rothenberg			Rothenberg, Jim	RSF spoke - Per Les: Fine call- not great, the guy was a little dull plus after the 'thank you for your support' Dick asked for his vote on the LB sh vote so it wasn't just a thank you call. Jim said he would try to be helpful there but also said "will have interesting discussions about risk mgmt once we get through this" was unclear whether he was referring to LB, his own people, or the whole industry. Dick was a little put off by the guy but it was fine.

As a client of your Private Investment Management Group and a shareholder, I'm gratified by your leadership in the current crisis. The contrast between what you did personally and how the firm acted in prudently building its reserves (and opening its books) - as contrasted with your fallen competitor, is evidence that virtue is still rewarded. Not incidentally, Carter Smith is doing a good job for us too. Best wishes, Ken

Mail (Received)	4/7/08 12:30 PM	Letter from Joanna Baricevic			Baricevic, Joanna	Dear Mr. Fuld: Although we have not met personally, I have admired you and your leadership very much. I was very happy when you became our CEO. I am retiring from the Firm on March 28th, and I would be remiss if I did not write to thank you and the Executive Board for your wisdom and vision in providing all of us here with such a wonderful working environment. Retiring is very emotional for me, as Lehman has been my second home for almost 47 years, and it has enriched my life in so many ways. I have interacted with so many terrific colleagues and made many lifelong friends at the Firm. My work has always been fulfilling and I will miss it and everyone so much. My one regret is that I will not be here to celebrate 50 years with the Firm. Your leadership has brought us through difficult times in the past, and I feel certain with you at the "helm" Lehman will emerge even stronger than before. I wish you and your staff God's speed. With admiration and affection, Sincerely, Joanna Baricevic

e-Mail (Received)	4/10/08 1:00 PM	Email from Charles Dallara			Dallara, Charles	Dear Dick: Although our paths have not crossed much in recent years, I have followed with great interest the strong and effective leadership you have provided to Lehman Brothers in good times and during these most recent stressful times. It has been my pleasure to work closely with Tom Russo in recent weeks and Madelyn Antonic on a range of issues concerning matters of interest to the industry. This includes how the industry, both individually and collectively, can deal with the recent market strains. At Tom's suggestion, Madelyn has become an active and key member of the Institute's recently formed Committee on Market Best Practices to look at what the industry can do to strengthen standards in light of the weaknesses that have been revealed over the past year or so. e-Mail (Received)	4/11/08 11:30 AM	Email from Raymond "RJ" Raggi, incl attachment			Raggi, Raymond	Mr. Richard Fuld, I am the answer towards significantly cutting your IT costs. If you remember during the 1980's under Herb Freiman's organization one of my responsibilities was representing the "Voice of the Business" to Information Systems. The procedure was to help focus IS on addressing the most essential requirements of Capital Markets. I also managed the group, Capital Markets Analytics in providing a shared decision support related service and ad hoc support to Trading and Sales while significantly cutting costs. Today I am being call upon by the business areas of multiple firms to help them get more out of IT services and to work with IT to better understand the essential business requirements that need to be address. My reports enable senior management to make the right decisions in staff reduction and/or redirection for optimizing resource utilization. I can also provide some innovative ideas in working with emerging markets like China for which I have been involved with for almost two years. My consulting fee \$2,500/day. Attached, please find my resume

Mail (Received)	4/28/08 1:30 PM	Letter from Edward Madden			Madden, Edward	Dear Dick, First, my congratulations to Lehman and you on a spectacular evening last week. I would agree with you that Geoffrey Canada is an amazing individual and has made a great contribution to the Harlem Community. As I mentioned, every year I gather 20-25 Senior Financial Executives from Fortune 100 Companies to discuss the pension/retirement business both from an investment standpoint and best practices in servicing participants. Attendees include: Verizon, DuPont, Florida Power & Light, GM, Ford, Sherwin Williams, Time Warner, BP Corporation and United Technologies. Two years ago, Alan Greenspan joined us for lunch and last year Yale Economist, Robert Shiller shared his views on the US real estate market. I would like to invite you to join us for lunch on Monday, June 23rd at the Yale Club, 50 Vanderbilt Avenue and give your views on the financial markets, as well as, a brief time for questions. Dick, I hope this fits your schedule; we can be flexible with your time. It would be a great opportunity for this very senior group to hear first hand your views on our ever changing economic environment

Mail (Sent)	7/3/08 5:00 PM	Letter from Martin Hughes			Hughes, Martin	I would firstly like to thank you for allowing the time for our meeting in London. Secondly, I would like to give an apology for what, on consieration, was a misguided conclusion. On review of the potential business mix, b/s and core franchise then I would like the option to reverse my original negative assessment of a combination. If you are given the opportunity to create a totally global, multi-product investment bank, with a deep franchise across all regions, then I would suggest your grasp that opportunity immediately. If you need assistance in that direction I believe Toscafund has probably got high level contacts that could nudge the thought to an agreed completion. Obviciously I wish you good fortune.

During the difficult times we had at Arthur Andersen I was always mindful of all the families within the Andersen family who were suffering from the media onslaught. Call	7/18/08 12:00 PM	Call with Manfred Wennemer			Wennemer, Manfred	Outcome: LB was added as an advisor to Conti RSF spoke. It was a great call. Dick followed the talking points and it resonated well. Wennemer said he heard from Alan that the team made a very good impression yesterday. Wennemer seemed to indicate that he is not the one making the decision, that he is deferring to Alan, but this point was a little unclear. Bottom line, good call -- he clearly appreciated hearing from RSF. Dick said we would love to be your partner.

He asked how Dick and the Firm was surviving and said he knew Dick could pull through it. He reminded me he had a dinner once with Dick and Kathy through Mike Quinn. He and Mike go back 35 years. He said his neighbor, Don Regan, works at Lehman. He wanted Dick to know that (1) he's rooting for him, and (2) 20 years ago when Donald Trump lost his people in a helicopter crash he told Trump "Now you will learn who your friends are". Dick's cell phone is 516-857-3039.

Lunch	9/2/08 12:00 PM	SG CEO/Oudea		Graham, Pierre	Lebot, Diony;Oudea, Frederic;Societe Generale Group	Broad and friendly conversation. Topics: -financial environment: Oudea very keen to hear Dick's views on the crisis -US mortgage market (RSF and JW mentioned the importance of sorting out FaM&FrM) -US elections -Oudea took us through some of the events at SG with rogue trader - Oudea mentioned being very impressed with the culture at LB (he had mentioned that to me also a while ago and it is a strong belief) and how RSF is dealing with the crisis. He likes the universal bank model and sees no change there but said they have never really broken through in the USA and did not believe organic would work giv
