POLICY IMPACT

In June 2006, the gastroenterology fellowship market rejoined the National Residency Matching Program, using a resolution proposed by Niederle, Proctor and Roth (2006).

In the spring of 2006, the AEA sponsored a “scramble” for the economics junior market (the result of the AEA's Ad Hoc Committee on the Economics Job Market that I am a member of and which is chaired by Al Roth).

In the fall of 2006, the AEA sponsored, for the first time, mechanism for applicants to signal their interest in up to two departments of their choice. For theoretical underpinnings, see Coles, Kushnir and Niederle (2010). This too is the result of the combined effort of the AEA's Ad Hoc Committee on the Economics Job Market.

In the summer of 2009, a team including Atila Abdulkadiroglu, Clayton Featherstone, Parag Pathak, and Alvin E. Roth started working with the San Francisco Unified School District to change the assignment mechanism with which children are assigned to public schools. The new assignment was unanimously adopted by the SFUSD school board on March 9, 2010.
