Struggle of Narratives Sketch for a New Map

Key players and their messages

To Islam - We don't hate you. We are not against the Islamic people. We are against the terrorists.
To U.S. public - We demand justice. We'll get them. We'll prevail. We want the terrorists dead or alive.
To ROW - We have no choice. It's a War of Good vs. Evil. You need to choose which side you're on.

Modernization / Globalization

Militant counterattack

Passive resistance of traditional cultures

We are on the side of good. Yes, we're powerful but not anti-Islamic.

They are evil terrorists, who kill innocent women and children.

We are faithful followers of God, who is all-powerful and good.

They are morally corrupt, trying to destroy Islam!

- This is a war of infidels against Islam
- Islamic moderate leaders are corrupt
- We defeated the Soviets who had a much more powerful army
- U.S. won't fight. Look at Lebanon, Somalia, the destroyer Cole
- We have nukes and chemical weapons and will use them if they are used against us.
