Each fall, the Department of Neurobiology hosts a symposium on research related to neurodegenerative and developmental research. The [Edward R. and Anne G. Lefler Center for the Study of Neurodegenerative Disorders](#) supports this symposium with an endowed fund. The symposium provides a forum to feature advances in the field and to facilitate discussion among faculty, fellows, students and other interested parties.

*Next Lefler Symposium - November 10th, 2015

Krishna V. Shenoy, Ph.D.

Professor

Departments of Electrical Engineering, Neurobiology, and Bioengineering; Neurosciences Graduate Program; Bio-X Program; and Stanford Neurosciences Institute

Director of "Shenoy Group": Neural Prosthetic Systems Laboratory (NPSL)

Co-Director of "Translational Group": Neural Prosthetics Translational Laboratory (NPTL)
Stanford University

The general format of the symposium includes a talk by a Department faculty recipient of a Lefler Small Grant,

two short talks by recipients of Lefler Fellowships, and a Lecture by a leader in the field of neurodegenerative and developmental research. Past Lefler Lecturers have been:

- **2014:** Ben Barres, Stanford University School of Medicine
- **2013:** Jeremy Nathans, Johns Hopkins University
- **2012:** David Ginty, Johns Hopkins University School of Medicine
- **2011:** Roberto Malinow, UCSD
- **2010:** Fred H. Gage, The Salk Institute for Biological Studies
- **2009:** Vilayanur S. Ramachandran, University of California, San Diego
- **2008:** Mark F. Bear, Massachusetts Institute of Technology
- **2007:** Eric Nestler, UT Southwestern Medical Center -**Recording of 2007 Lefler Lecture** (requires Real Media player)
- **2006:** 10th Anniversary Celebration Symposium -"Birth, Death, and Repair in the Brain", Arturo Alvarez-Buylla, UCSF, Christopher Henderson, Columbia University, Susan McConnell, Stanford University, Dennis Selkoe, Brigham and Women's Hospital, Gerald Fischbach, Columbia University
- **2005:** Susan Lindquist, Massachusetts Institute of Technology
- **2004:** Robert H. Brown, Jr., Harvard Medical School, Massachusetts General Hospital
- **2003:** H. Robert Horvitz, Massachusetts Institute of Technology
- **2002:** Lawrence S.B. Goldstein, University of California, San Diego
- **2001:** Huda Zoghbi, Baylor College of Medicine
- **2000:** Allison Doupe, University of California, San Francisco
- **1999:** Kenneth Fischbeck, National Institutes of Health
- **1998:** Stanley Korsmeyer, Harvard Medical School/Dana-Farber Cancer Institute
